

INTRODUCING PIXEL GROUP

QUALITY ASSURANCE

- ▣ PIXEL GROUP is a Colombian quality assurance company with a solid methodology, a trained staff and QA tools that make us your best option.
- ▣ When working with us, you will obtain:
 - A fixed price based on a proven estimation methodology
 - Testing Suite (Pixeltester tool)
 - No need for licenses software investment
 - Full 24 hour work day cycle
 - A trained staff
 - A Test Plan from the beginning

FIXED PRICE PROPOSAL

- ▣ We read, analyze and organize the information
- ▣ We make the list of characteristics (functional and non-functional requirements) that should be tested.
- ▣ We clarify any doubt on the project
- ▣ We trust our estimates in which the cost is based on.

PIXELTESTER TOOL

- ▣ PIXEL GROUP has developed a software to administrate test cases and issues. This tool is known as Pixeltester and it's available in English as well as in Spanish.
- ▣ It is a system without users account limit.
- ▣ There is no need for a licenses software investment nor technical support.
- ▣ The use of Pixeltester is not a requirement to work with us, we can adapt to any other system and process.

QA 24 / 7 with a trained staff

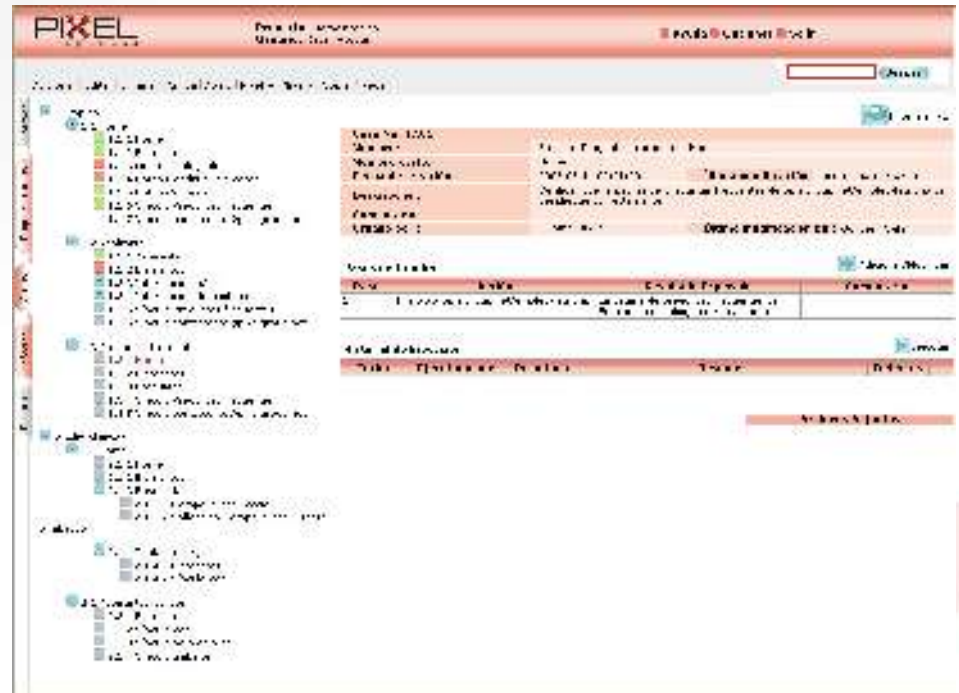

- ▣ We work in any schedule which includes working days, nights, weekends and holidays.
- ▣ Resources are always available when working on a project.
- ▣ The human resources are trained in methodology and QA tools, completely engaged with the project's needs, usability and best practices for Internet websites.

METHODOLOGY

The PIXEL GROUP methodology used to carry out the quality assurance includes:

- Information analysis
- Test cases creation
- Tests execution
- Reports
- Control activities

Contact us for more information about our methodology and QA tool any time.

OUR CLIENTS

We have the experience testing big sites like www.eltiempo.com, with an average of one million visits a day, and English sites like www.whatthefruit.net
